Terms of the Using of the Report

- According to the needs of issuing the report, the company requires the client to provide true and complete samples and data (see the report tape ★ for details). The Company will not bear any consequences caused by the wrong information provided by the Client. If the chemical information, authoritative database and relevant policy changes submitted by the client affect the conclusions of this report, this report will automatically become invalid. Unless otherwise specified, the data in this report are only responsible for the samples submitted for inspection, and the accuracy of sample composition information is the responsibility of the client. The hazard characteristics, transportation information and emergency measures of samples need to focus on the corresponding parts of this report.
- 2. The data source of this report is based on the relevant materials and information submitted by the client, the test results of international authoritative databases, laboratories and the current relevant knowledge of the company. We try our best to ensure the correctness of all information during the audit. However, due to the diversity of information sources and the limitations of the Company's knowledge, users of this report should make further judgments on the reasonableness of relevant information based on the purpose of use.
- 3. This report will be effective only after it is signed by the inspector, approver and stamped by our company.
- 4. Our company guarantees the objectivity and familiess of this report and carries out confidentiality obligations on business secrets such as business information, technical documents and so on.
- 5. This report does not consider the differences between commerciand operators.
- 6. The partly duplicating of this report is prohibited without the written approver.
- 7. The report is invalid when anything of the following happens-illegal transfer, embezzlement, imposture, modification or tampering in any media form.
- 8. This report is valid before the implementation of the new version of the standard.

Safety Data Sheet

Cyclohexanone

Version : V2.0.0.1 Report No. : HGBZ2304VTO2 Creation Date : 2023/04/28 Revision Date : 2023/04/28

*According to GHS (Ninth Revised Edition)

1 Identification

Product identifier

| Product Name | Cyclohexanone |
|-------------------|----------------------------------|
| CAS No. | 108-94-1 |
| EC No. | 203-631-1 |
| Molecular Formula | C ₆ H ₁₀ O |

Recommended use of the product and restrictions on use

| Relevant identified uses | Please consult manufacturer. |
|--------------------------|------------------------------|
| Uses advised against | Please consult manufacturer. |

Details of the supplier

| Applicant Name | ZHENGZHOU BATONG INDUSTRIAL CO., LTD |
|---------------------|---|
| Applicant Address | GUAN DI MIAO Village YU LONG Town, XING YANG City |
| Applicant Post Code | - |
| Applicant Telephone | 0371-68538723 |
| Applicant Fax | 0371-68538725 |
| Applicant E-mail | info@batongchemical.com |
| Supplier Name | ZHENGZHOU BATONG INDUSTRIAL CO., LTD |
| Supplier Address | GUAN DI MIAO Village YU LONG Town, XING YANG City |
| Supplier Post Code | - |
| Supplier Telephone | 0371-68538723 |
| Supplier Fax | 0371-68538725 |
| Supplier E-mail | info@batongchemical.com |
| | |

Emergency phone number

Emergency phone number +86-371-68538723

2 Hazard(s) identification

Hazard classification according to GHS

| Flammable Liquids | Category 3 |
|-----------------------------|------------|
| Acute Toxicity – Inhalation | Category 4 |

GHS Label elements

| Hazard pictograms | |
|-------------------|---------|
| Signal word | Warning |

Hazard statements

| H226 | Flammable liquid and vapour |
|------|-----------------------------|
| H332 | Harmful if inhaled |

| Precautionary statements

Prevention

| P210 | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. |
|------|--|
| P233 | Keep container tightly closed. |
| P240 | Ground and bond container and receiving equipment. |
| P241 | Use explosion-proof [electrical/ventilating/lighting] equipment. |
| P242 | Use non-sparking tools. |
| P243 | Take action to prevent static discharges. |
| P261 | Avoid breathing gas/mist/vapour/spray. |
| P271 | Use only outdoors or in a well-ventilated area. |
| P280 | Wear protective gloves/protective clothing/eye protection/face protection/hearing protection. |

Response

| P317 | Get medical help. |
|------------------------------|---|
| P304+P340 | IF INHALED: Remove person to fresh air and keep comfortable for breathing. |
| P370+P378 | In case of fire: Use appropriate extinguishing media mentioned in Section 5 of the SDS to extinguish. |
| P303+P361+P353 | IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse |
| | affected areas with water [or shower]. |
| Storage | |
| P403+P235 | Store in a well-ventilated place. Keep cool. |
| Disposal | |
| P501 | Dispose of contents/container in accordance with local/regional/national/ international regulations. |

Hazard description

Physical and chemical hazards

| | Flammable liquids, its vapor and air mixture can form explosive mixture. |
|---|--|
| Health hazards | |
| Inhaled | Cough. Sore throat. Dizziness. Drowsiness. |
| Ingestion | Abdominal pain. Burning sensation. |
| Skin Contact | MAY BE ABSORBED! Dry skin. Redness. |
| Eye | Redness. Pain. |
| Environmental hazards | |

Please refer to 12th chapter of SDS.

4

3 Composition/information on ingredients

Substance/mixture

Substance

| Component | CAS No. | EC No. | Concentration (Volume or weight percent, %) |
|---------------|----------|-----------|---|
| Cyclohexanone | 108-94-1 | 203-631-1 | ≥ 99.8 |

First-aid measures

Description of first aid measures

| General advice | Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance. |
|----------------------------|--|
| Eye contact | First rinse with plenty of water for several minutes (remove contact lenses if easily possible), then take to a doctor. |
| Skin contact | Remove contaminated clothes. Rinse skin with plenty of water or shower. Refer for medical attention. |
| Ingestion | Rinse mouth. Give one or two glasses of water to drink. Refer for medical attention. |
| Inhalation | Fresh air, rest. Refer for medical attention. |
| Protecting of first-aiders | Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination. |

Most important symptoms/effects, acute and delayed

1 Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure.

Indication of any immediate medical attention and special treatment needed

| 1 | Treat symptomatically. |
|---|--------------------------|
| 2 | Symptoms may be delayed. |

5 Fire-fighting measures

Extinguishing media

| Suitable extinguishing media | Small Fire : Dry chemical, CO2, water spray or alcohol-resistant foam; Large Fire : Water spray, fog or alcohol-resistant foam. |
|--------------------------------|---|
| Unsuitable extinguishing media | Do not use a solid water stream as it may scatter or spread fire. |

Specific hazards arising from the substance or mixture

| 1 | Will form explosive mixtures with air. |
|---|---|
| 2 | Fire exposed containers may vent contents through pressure relief valves thereby increasing fire intensity and/ or vapour concentration. |
| 3 | Vapours may travel to source of ignition and flash back. |
| 4 | Liquid and vapour are flammable. |
| 5 | Development of hazardous combustion gases or vapor possible in the event of fire. |
| 6 | May expansion or decompose explosively when heated or involved in fire. |

Special protective equipment and precautions for fire-fighters

1 As in any fire, wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full

| | protective gear. |
|---|---|
| 2 | Fight fire from a safe distance, with adequate cover. |
| 3 | Prevent fire extinguishing water from contaminating surface water or the ground water system. |

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures

| sonal productions, procedure equipment and emergency procedures |
|--|
| Avoid breathing vapours and contacting with skin and eye. |
| Beware of vapours accumulating to form explosive concentrations. |
| Vapours can accumulate in low areas. |
| Emergency personnel wear positive pressure self-contained breathing apparatus. Wear protective and anti-static clothing. Wear chemical impermeable gloves. |
| Use personal protective equipment, do not breathe gas/mist/vapour/spray. |
| Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges. |
| Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. |
| rironmental precautions Prevent further leakage or spillage if safe to do so. |
| Discharge into the environment must be avoided. |
| |
| hods and materials for containment and cleaning up |
| It is recommended that emergency personnel wear positive pressure self-contained breathing apparatus and wear anti-static clothing. |
| In case of small amount of spillage, use clean non sparking tools to collect absorption materials. |
| In case of large amount of spillage, construct cofferdam or dig a hole to collect the spillage. Use foam cover to |
| reduce evaporation. Water spray mist can reduce evaporation, but can not reduce the flammability of the leakage in the restricted space. |
| reduce evaporation. Water spray mist can reduce evaporation, but can not reduce the flammability of the |
| reduce evaporation. Water spray mist can reduce evaporation, but can not reduce the flammability of the leakage in the restricted space. |
| |

- spreading or contact with rain.
- 7 Water spray reduces evaporation but does not reduce the flammability of spills in confined spaces.
- 8 Cut off the source of the leak as much as possible.
- 9 Keep leaks in a ventilated place.
- 10 Absorb spilled material in dry sand or inert absorbent. In case of large amount of spillage, contain a spill by bunding.
- 11 Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment.
- 12 Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container.
- **13** Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment.

7 Handling and storage

Precautions for safe handling

| 1 | Avoid inhalation of vapors. |
|---|---|
| 2 | Use only non-sparking tools. |
| 3 | To prevent fire caused by electrostatic discharge steam, equipment on all metal parts should be grounded. |

| 4 | Use explosion proof equipment. |
|---|---|
| 5 | Handling is performed in a well ventilated place. |
| 6 | Wear suitable protective equipment. |
| 7 | Avoid contact with skin and eyes. |
| 8 | Keep away from heat/sparks/open flames/ hot surfaces. |

Conditions for safe storage, including any incompatibilities

- 1 Keep containers tightly closed.
- 2 Keep containers in a dry, cool and well-ventilated place.
- 3 Keep away from heat/sparks/open flames/hot surfaces.
- 4 Store away from incompatible materials and foodstuff containers.

8 Exposure controls/personal protection

Control parameters

| Component | Country/Region | Limit value - Eight hours | | Limit value - Short term | |
|---------------|----------------|---------------------------|-------|--------------------------|-------|
| | | ppm | mg/m³ | ppm | mg/m³ |
| Cyclohexanone | USA - OSHA | 50 | 200 | | |
| | South Korea | 25 | 100 | 50 | 200 |
| | Ireland | 10 | 40.8 | 20 | 81.6 |
| | Germany (AGS) | 20 | 80 | 20 | 80 |
| | Denmark | 10 | 40 | 20 | 80 |
| | Australia | 25 | 100 | | |
| | USA-ACGIH | 20 | | 50 | |

Biological limit values

| Biological limit values | No relevant regulations |
|-------------------------|-------------------------|
|-------------------------|-------------------------|

Monitoring methods

| 1 | EN 14042 Workplace atmospheres. Guide for the application and use of procedures for the assessment of | | |
|---|---|--|--|
| | exposure to chemical and biological agents. | | |
| 2 | GBZ/T 300 series standard Determination of toxic substances in workplace air. | | |

Engineering controls

| 1 | Ensure adequate ventilation, especially in confined areas. |
|---|--|
| 2 | Ensure that eyewash stations and safety showers are close to the workstation location. |
| 3 | Use explosion-proof electrical/ventilating/lighting/equipment. |
| 4 | Set up emergency exit and necessary risk-elimination area. |

Personal protection equipment

| General requirement | |
|---------------------|---|
| Eye protection | Must wear appropriate safety goggles. |
| Hand protection | Must wear anti static chemical protective gloves. |
| | |

| Respiratory protection | Must wear appropriate personal respiratory protective equipment. |
|-------------------------------|---|
| Skin and body protection | Must wear anti static chemical protective clothing and anti static shoes. |

10 Stability and reactivity

Stability and reactivity

| Reactivity | Contact with incompatible substances can cause decomposition or other chemical reactions. |
|---------------------------------------|--|
| Chemical stability | Stable under proper operation and storage conditions. |
| Possibility of hazardous reactions | In contact with oxidants may cause a fire or an explosion. |
| Conditions to avoid | Incompatible materials, heat, flame and spark. |
| Incompatible materials | Oxidants, chloroform, bromoform and other organic solvents. |
| Hazardous decomposition products | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

11 Toxicological information

Acute toxicity

Acute toxicity No information available

Carcinogenicity

| Component | List of carcinogens by the IARC Monographs | Report on Carcinogens by NTP | | | | |
|---------------|---|------------------------------|--|--|--|--|
| Cyclohexanone | Category 3 | Not Listed | | | | |

Others

| | Cyclohexanone(Component) |
|--------------------------------------|--|
| Skin corrosion/irritation | Based on available data, the classification criteria are not met |
| Serious eye damage/irritation | Based on available data, the classification criteria are not met |
| Skin sensitization | Based on available data, the classification criteria are not met |
| Respiratory sensitization | Based on available data, the classification criteria are not met |
| Reproductive toxicity | Based on available data, the classification criteria are not met |
| STOT-single exposure | Based on available data, the classification criteria are not met |
| STOT-repeated exposure | Based on available data, the classification criteria are not met |
| Aspiration hazard | Based on available data, the classification criteria are not met |
| Germ cell mutagenicity | Based on available data, the classification criteria are not met |
| Reproductive toxicity(additional) | Based on available data, the classification criteria are not met |

12 Ecological information

| Acute aquatic toxicity | | | | | | |
|-------------------------------|--------------------------|--|--|--|--|--|
| Acute aquatic toxicity | lo information available | | | | | |
| Chronic aquatic toxicity | | | | | | |
| Chronic aquatic toxicity | No information available | | | | | |
| Persistence and degradability | y | | | | | |
| Persistence and degradability | No information available | | | | | |
| Bioaccumulative potential | | | | | | |
| Bioaccumulative potential | No information available | | | | | |
| Mobility in soil | | | | | | |
| Mobility in soil | No information available | | | | | |

Results of PBT and vPvB assessment

| Component | Results of PBT and vPvB assessment [according to (EC) No 1907/2006 | | | | | |
|---------------|--|--|--|--|--|--|
| Cyclohexanone | Not available | | | | | |

Disposal considerations

| Waste chemicals | Before disposal should refer to the relevant national and local laws and regulation. Recommend the use of incineration disposal. |
|------------------------|--|
| Contaminated packaging | Containers may still present chemical hazard when empty. Keep away from hot |
| | and ignition source of fire. Return to supplier for recycling if possible. |

Disposal recommendations Refer to section waste chemicals and contaminated packaging.

Disclaimer

This Safety Data Sheet (SDS) was prepared according to UN GHS (the 9th revised edition). The data included was derived from international authoritative database and provided by the enterprise. Other information was based on the present state of our knowledge. We try to ensure the correctness of all information. However, due to the diversity of information sources and the limitations of our knowledge, this document is only for user's reference. Users should make their independent judgment of suitability of this information for their particular purposes. We do not assume responsibility for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product.
