Hainan Starry
International Trading Co., Ltd.

FULL RANGE OF CHEMICAL IMPORT
AND EXPORT SOLUTION

01 Overview

Hainan Starry International Trading Co., Ltd., one of the subsidiary companies of Zhengzhou Batong Chemical Group, is specialized in international chemical trade business. We are mainly engaged in the storage, transportation and trade of hazardous chemicals. Our main business is liquid chemical products, including aromatic hydrocarbons, acetates, phenolic ketones, alcohols, and other 40 kinds of chemical products. After 30 years of rapid development, we have become one of the industry leaders. In 2022, our global sales revenue for liquid chemicals is expected to exceed RMB seven billion, with a sales volume reaching 1 million tons.

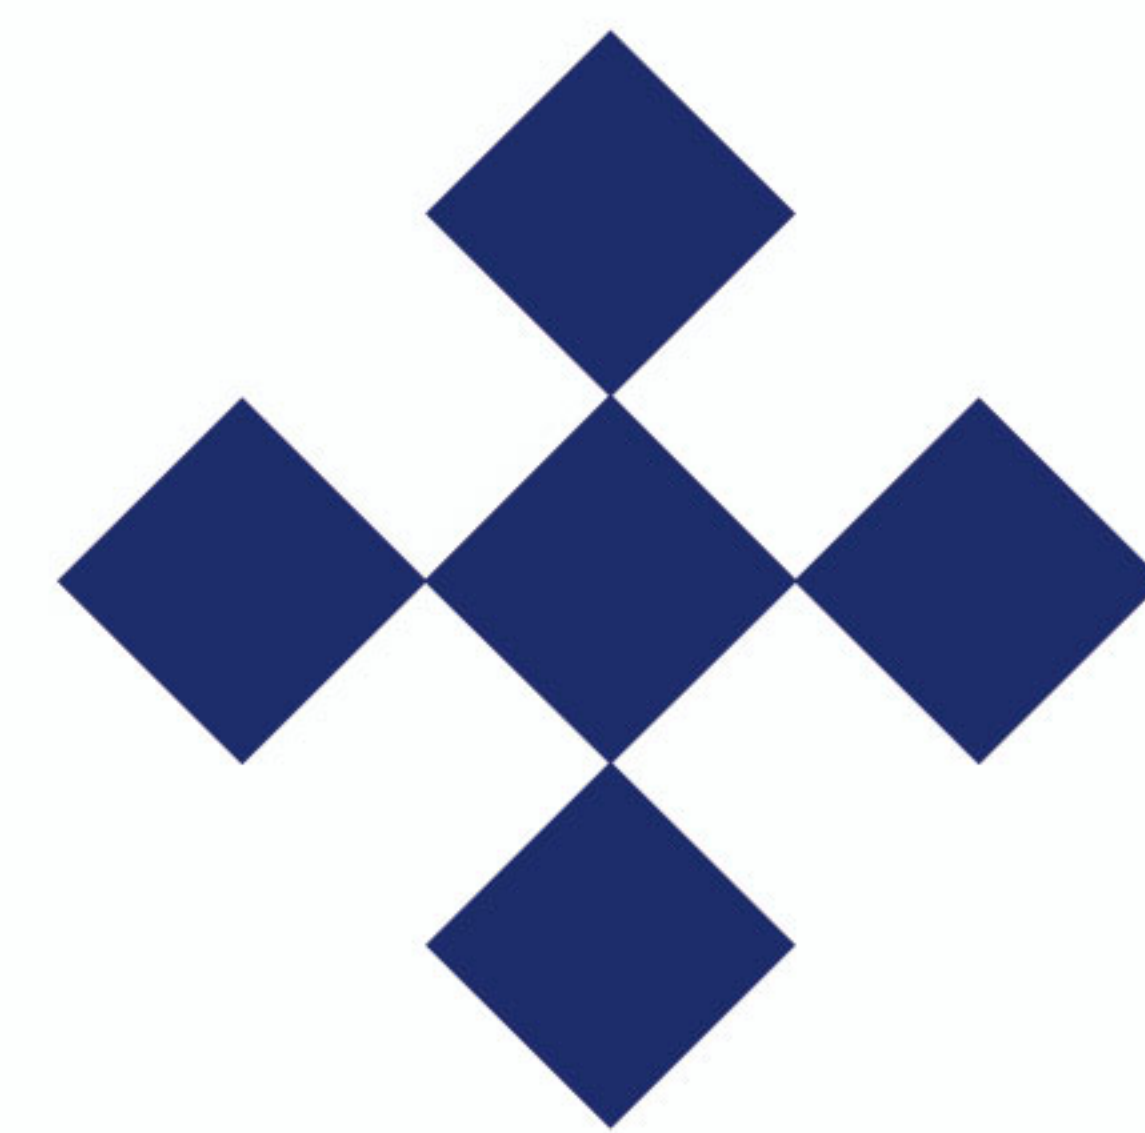

ABOUT US

The group company has a storage capacity of 50,000 cubic meters of liquid chemical storage tank farm, and a professional hazardous chemical railway line serves as the only unloading line for third-class hazardous chemicals in central China. We have now developed into an integrated enterprise in hazardous chemicals, storage, trade and logistics.

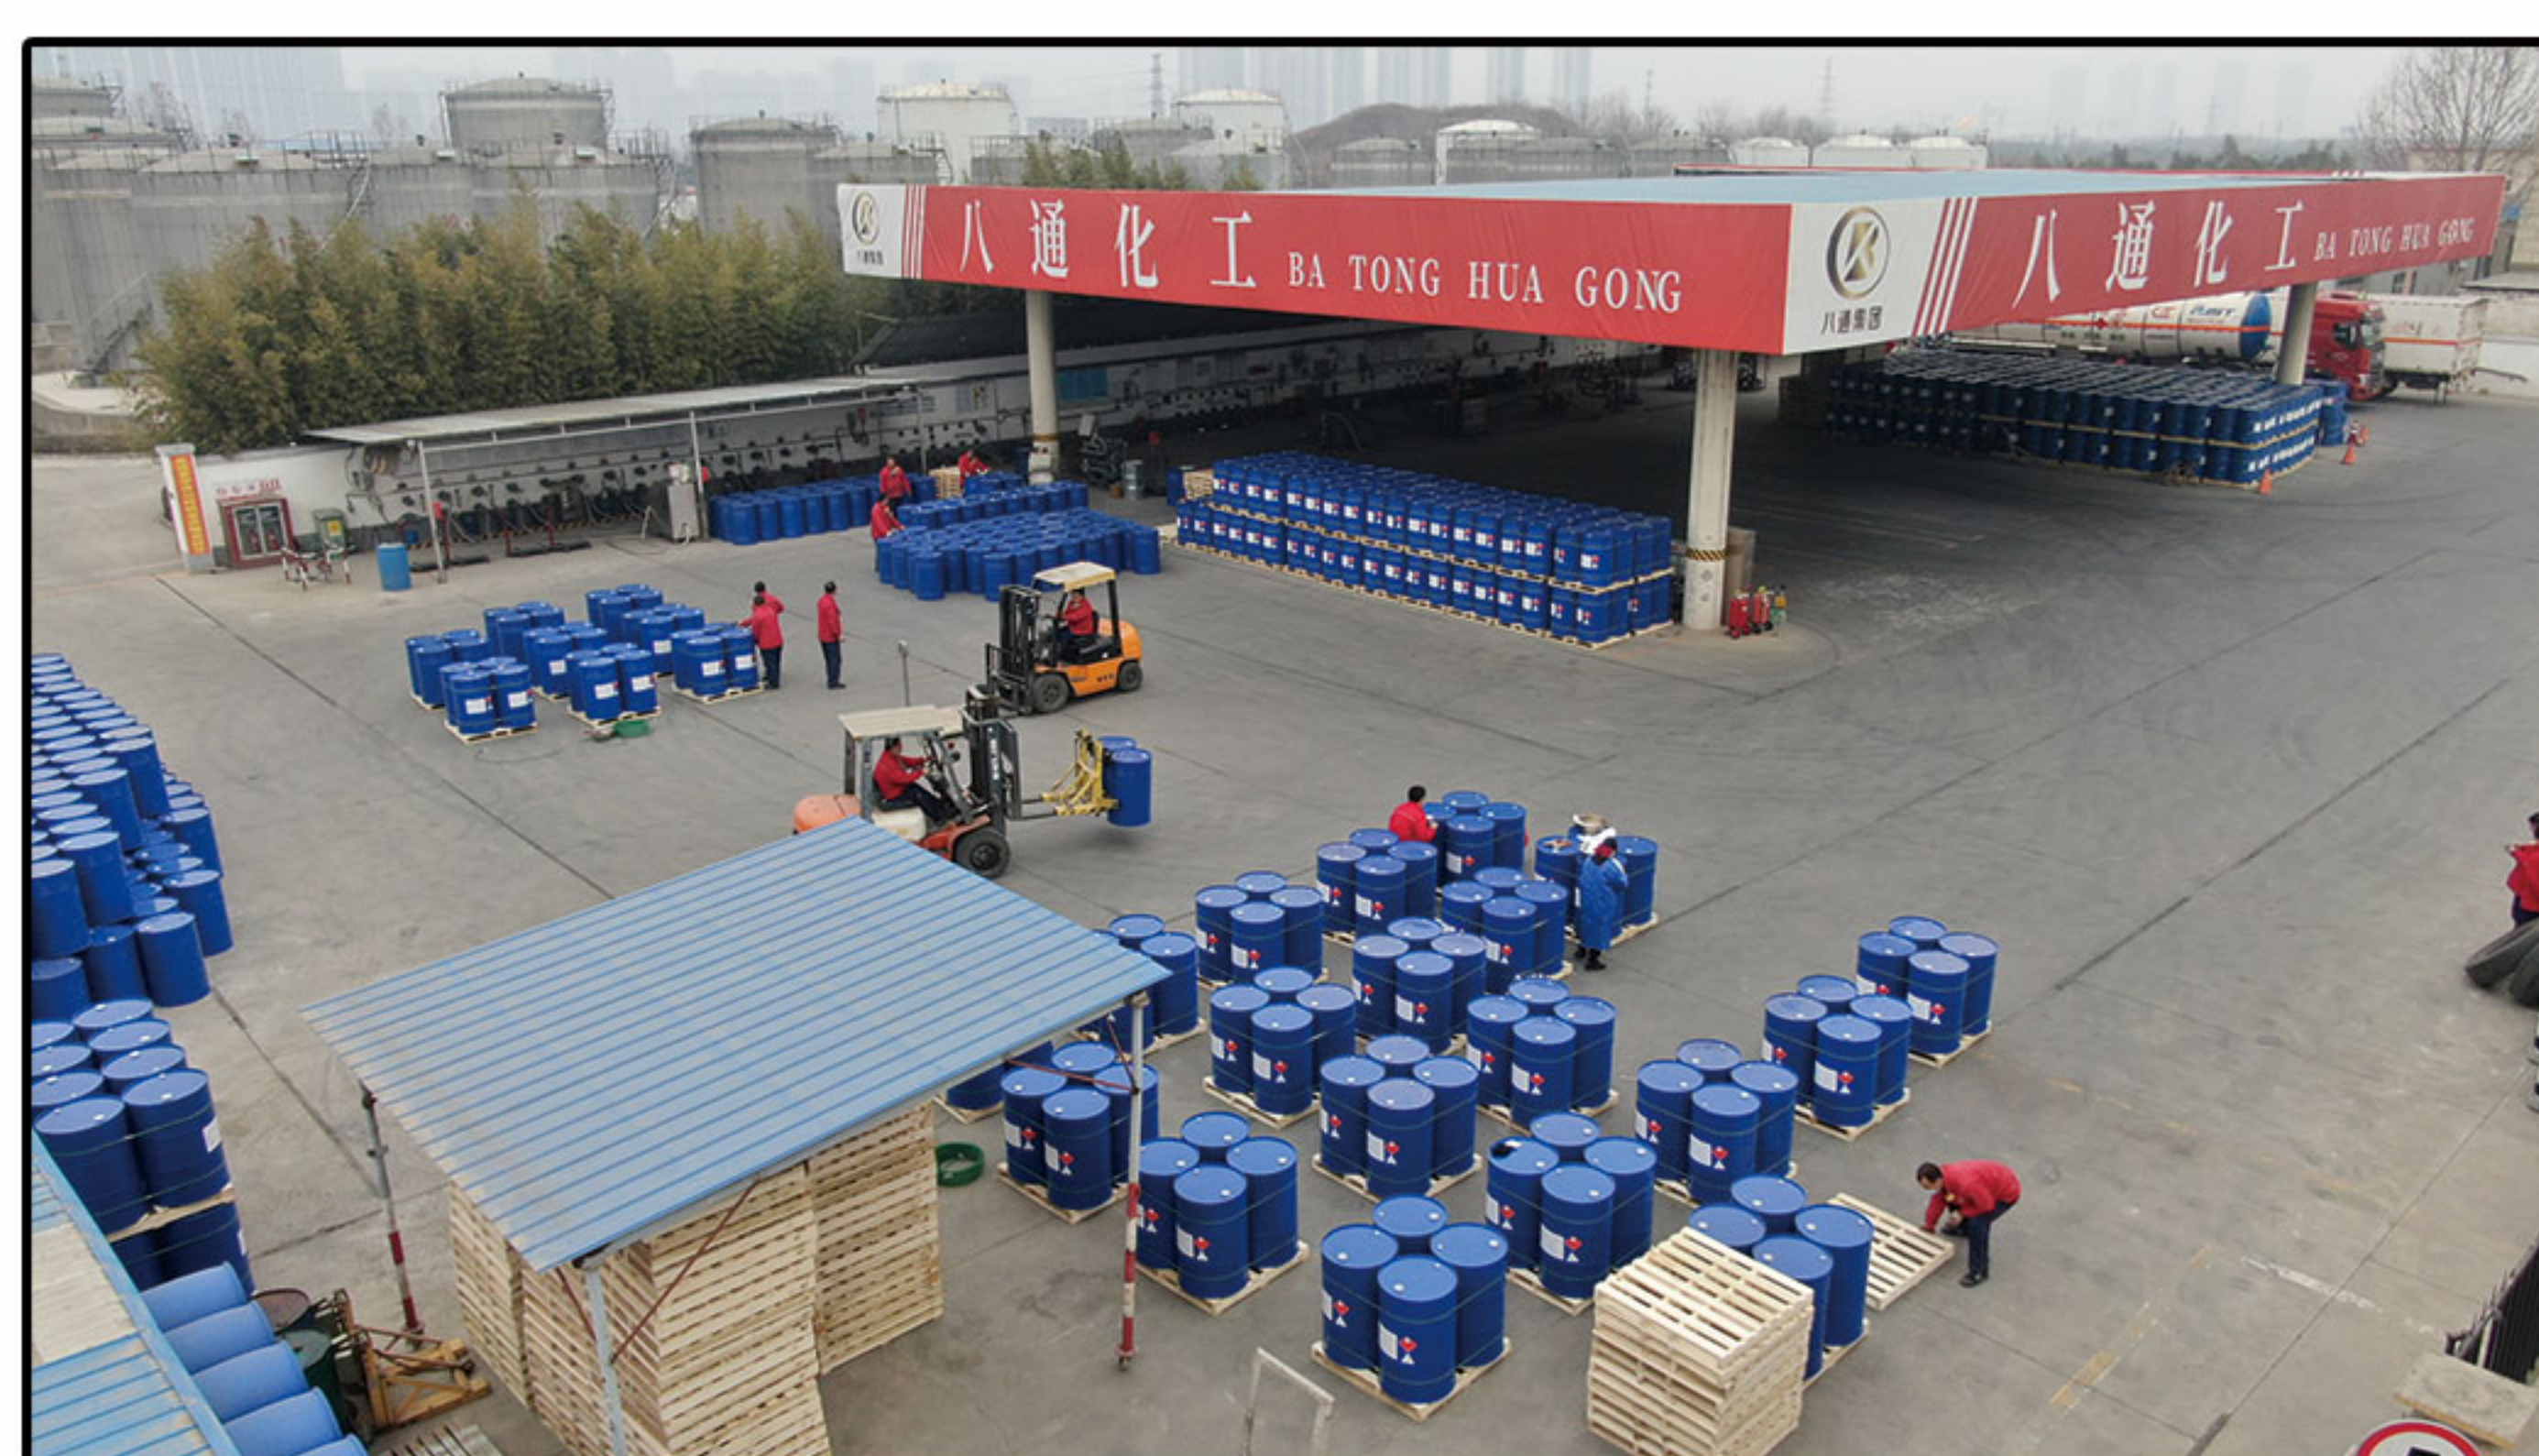

2. Development status

01 Company Status

Our products are primarily utilized in various industries such as pharmaceuticals, coatings, printing, and fine chemicals. At the same time, we maintain long-term strategic partnerships with PetroChina, Sinopec, CNOOC, and large to medium-sized domestic refining and chemical companies. Our business scope extends to China and numerous overseas countries. In recent years, we have gradually expanded our market globally, and our business volume has experienced rapid growth. We have now become an important liquid chemical distribution base in central China.

02 Storage

We have invested more than USD 20 million to build a storage tank farm and safety management facilities of nearly 50,000 cubic meters in Zhengzhou City. In 2024, the throughput can reach 600,000 tons, and we are becoming the most important liquid chemical distribution base in Central China.

03

03 Logistics

Additionally, the group company possesses a professional hazardous chemical transportation fleet with a single transportation capacity of 5,000 tons, which further accelerates the company's rapid development. The scope encompasses the transportation of third-class liquid hazardous chemicals and container train transportation. Meanwhile, we offer a variety of transportation methods, including railway, waterway, and sea transportation, to meet the diverse delivery time requirements of our customers.
